

A GUIDE FOR CHOOSING BENFER ADHESIVES BASED ON THE CATEGORY AND CLASS ACCORDING TO REGULATIONS EN 12004 AND EN 12002

CEMENTITIOUS ADHESIVES CLASSES

THESE ARE HIGH PERFORMANCES ADHESIVES RECOMMENDED FOR EXTERIOR WALL COVERING APPLICATIONS

product name	category, class additional features	description
BENFERGRIP+CEMLATEX 600	C2TE S2	Extra white or grey bi-component cementitious adhesive with high resistance and deformability. Zero vertical sliding. Extended open time.
BENFERFIX EXTRA+CEMLATEX 600	C2E S2	Bi-component cementitious adhesive with high resistance and deformability. Extended open time.
BENFERFIX GROSSO+CEMLATEX 600	C2 S2	Bi-component cementitious adhesive with high resistance and deformability. Can be spread in a layer of up to 20 mm.

CEMENTITIOUS ADHESIVES CLASSES

THESE ARE HIGH PERFORMANCES ADHESIVES RECOMMENDED FOR DIFFICULT APPLICATIONS

product name	category, class additional features	description
LEADERFLEX RAPIDO	C2F S1	High resistance cement adhesive. Excellent deformability. Quick setting. Extra white or grey.
BENFERFLEX RAPIDO	C2F S1	High resistance cement adhesive. Excellent deformability. Quick setting. Extra white or grey.
BENFERFLEX C2	C2T S1	High resistance cement adhesive. Excellent deformability. Zero vertical sliding.
BENFERFIX RAPIDO+FLEXIBLE CEMLATEXSOLUTION	C2F S1	High resistance bi-component cement adhesive. Excellent deformability. Quick setting.

CEMENTITIOUS ADHESIVES CLASS

THESE ARE HIGH PERFORMANCES ADHESIVES RECOMMENDED FOR APPLICATIONS OF DIFFICULT MATERIALS

product name	category, class additional features	description
MARMOFLEX	C2FE	High resistance cement adhesive. Good deformability. Extended open time. Quick setting. Extra white.
BENFERFLEX N	C2E	High resistance cement adhesive. Good deformability. Extended open time.
SELFWETTING	C2FE(G)	High resistance self-wetting cement adhesive. Extended open time. Good deformability. Quick setting.
BENFERFIX RAPIDO	C2F	High resistance cement adhesive. Discreet deformability. Quick setting.

CEMENTITIOUS ADHESIVES CLASS

THESE GOOD PERFORMANCES ADHESIVES ARE RECOMMENDED FOR INTERIOR APPLICATIONS. EXTERIOR USE IN SIZES ≤ 400 CM².

product name	category, class additional features	description
BENFERGRIP	C1TE	Extra white cement adhesive with zero vertical sliding. Extended open time.
BENFERFIX EXTRA	C1E	Cement adhesive with extended open time.
BENFERFIX GROSSO	C1	Cement adhesive spreadable in a layer of up to 20 mm.

CEMENTITIOUS ADHESIVES CLASS

FOR INTERIORS

THESE ARE HIGH PERFORMANCES ADHESIVES THAT ARE RECOMMENDED FOR MATERIALS IN SIZES OF $\leq 900 \text{ CM}^2$

product name

category, class additional features

description

BENFERGYPS

C1

Cement adhesive for interiors.
For use on plaster without primer.

**BENFERFIX
EASYTILE**

C1

Cement adhesives for interiors. Extra white or grey.

C1

Cement adhesives for interiors.

WATER DISPERSION ADHESIVES IN CLASS

FOR INTERIORS

THESE ARE READY TO USE ADHESIVES FOR INTERIORS FOR MATERIALS IN SIZES OF $\leq 900 \text{ CM}^2$ AND ABSORPTION OF $\geq 3\%$.

product name

category, class additional features

description

BENFERMASTICK

D1T

Water dispersion ready to use adhesives for interiors. Zero vertical sliding.

REACTIVE ADHESIVES IN CLASS

FOR INTERIORS

THESE ARE BI-COMPONENT ADHESIVES WITH EXCELLENT PERFORMANCES THAT ARE RECOMMENDED FOR INTERIOR APPLICATIONS OF LARGE SIZE MATERIALS. PERFECT ALSO FOR NATURAL STONE THAT IS VERY SENSITIVE TO HUMIDITY.

product name

category, class additional features

description

BENFERJOLLY

R2T

Reactive bi-component adhesive for interiors.
Zero vertical sliding.
