• PRODUCTS FOR MARBLE AND CERAMIC CARE

• MARBLE CARE, CLEANING AND UNKEEP

• BENFERCLEANER

Benfercleaner is a controlled ph concentrated antibacterial detergent.

The ph value of 7 was fixed because it is compatible with that of natural stones, which could be seriously damaged by contact with detergents with a lower ph.

Thanks to its formula, which is effective on a wide variety of materials, it allows easy cleaning with a deep anti-bacterial action in all domestic applications, and also in hotels, hospitals and canteens.

Delicately perfumed, its versatility and its concentrated formula make it particularly economic to use.

Warning

Wear latex gloves.

Store at room temperature with the container closed well.

Keep out of reach of children.
