

# BENFER PRIM

Rev.00

## PRIMER FOR GYPSUM OR SCAGLIOLA SURFACES

### TECHNICAL FEATURES:

BENFERPRIM is a polymeric dispersion modified in such a way to offer a good adhesion on plasters with a gypsum or scagliola base on one hand and to provide, once dried, optimum anchorage surface to Benferfix Extra (white or grey) on the other hand.

### MODES OF USE:

Lay BENFERPRIM uniformly on the dry and clean foundation with a brush. Leave the wall dry again (humidity lower than 4%), and then go on with the laying-work of the wall with Benferfix Extra Bianco or Grigio (white or grey).

### COVERAGE:

From 100 up to about 200 g/m<sup>2</sup>. The product cannot stand the frost.

NB: The information given in this chart is based on our best experience and indicative only.  
It must in any event be verified by the end user, who assumes  
all liabilities deriving from utilization of the product.
