TECHNICAL MEETINGS

Periodic technical/professional training

Kit for the rapid and easy removal from household marble of stains caused by corrosion like those shown alongside, restoring the original appearance of the surface.

The kit also contains two products for keeping them clean and protected over time.

A film illustrating the use of the kit can be found on our website **www.benfer.it**

The kit contains product for removing 3 corrosion stains the size of a tumbler glass bottom, Benfercleaner and Benferpolish that are sufficient for numerous applications.

For the removal and treatment of larger stains the components necessary can be purchased individually.

data collected at 23° and 50% of r.h.

USE

Elimination of stains
from corrosion:
using the abrasive pads
in sequence (white-blue-orange)

Polishing:
with polishing powder
and Benferpolish

Upkeep:
for daily cleaning with Benfercleaner and polish weekly with a light coat of Benferpolish.

For technical data consult the technical sheets of the individual components.

COVERAGE: The pads and polishing powder are sufficient for the removal of 3 stains as big as a glass bottom, Benfercleaner and Benferpolish for many applications.

WARNING: Store at room temperature in a closed container.
Keep out of reach of children.
