

# FIBREGLASS MESH

## DESCRIPTION:

Fibreglass mesh for reinforcing waterproofing

and finishing products. Increases resistance and performance of mortars, even in unfavorable environmental conditions.

## FIELDS OF APPLICATION:

It is used together with **Acquashield**, **Benferschirm**, **Benferfinish** and **Nientemuffa**.

## INSTRUCTIONS FOR USE:

Insert immediately following the first application by pressing with a smooth spatula so that the special fabric comes into complete contact with and attaches to the mortar. This net reinforces the most critical points for waterproofing treatments or plaster.

## PACKAGES:

Single rolls with 1 meter height and 50 meters length.

## DURATION:

24 months in its original packaging.
