

BENFERCLEAN STRONG

Buffered concentrated acid cleaner

- Cleaning hardened encrustations of cement or tile adhesives and grouts from brick, cotto, ceramic tiles, fully vitrified stoneware, natural stone, concrete, sanitary ware
- Cleaning efflorescence from cotto, joints between tiles, plaster, etc

TECHNICAL FEATURES:

BENFERCLEAN STRONG is a buffered concentrated acid cleaner that contains corrosion inhibitors and is suitable for cleaning cement encrustations, limestone, frosting on masonry surfaces, ceramics, stoneware, hardened concrete and bathroom fittings. Its concentrated formula can be diluted with water as desired. A ratio of 1:5 is sufficient to dissolve encrustations rapidly.

CONTRACT ITEM SPECIFICATIONS:

Removal of cementitious encrustments, scaling, and efflorescences of stone surfaces, ceramic products, cotto, sanitary ware through the application of an acid cleaner concentrated and pluggeed as BENFERCLEAN STRONG by Benfer.

METHOD OF USE:

The product can be used neat, or diluted in water if a slow dissolving action is required. Protect any parts that are not acid-resistant before proceeding with application, when cleaning particularly absorbent surfaces (brick, cotto, etc.) dampen with water before using in order to avoid excessively deep penetration of the product. Apply the product to the surface with a brush or abrasive sponge and leave to react for 5 minutes. If necessary, scrub the surface to promote removal of encrustations. Thoroughly remove the product together with encrustations using a sponge or liquid vacuum cleaner. Rinse several times with water, removing the wash water each time.

ADVICE:

Do not use BENFERCLEAN STRONG on surfaces that could be damaged by acid, like marble or terrazzo (including reconstituted products), since it could cause unsightly opaqueness and corrosion. Do not use on tiles or other glazed surfaces if the glaze is not acid-resistant. BENFERCLEAN STRONG is not suitable for removing stubborn greasy and oily substances.

When using BENFERCLEAN STRONG always wear suitable protective clothing and equipment (rubber gloves, rubber boots, protective eyewear) to protect any parts of the body which might come into contact with the product. In the event of contact with the skin, wash with mild soap and flood copiously with water. In the event of contact with the eyes, flood copiously with water and consult a doctor. In the event of swallowing the product, wash the mouth with water, drink small doses of 10% sodium bicarbonate solution and consult a doctor. Dispose of the product and packaging carefully.

CLEANING: Rinse several times with water, removing accurately the washing rinsing water.

CONSUMPTION: Coverage is normally 50-100 g per m². This will vary depending on the type and quantity of material to be removed, and on porosity of the treated surface.

PACKAGING: BENFERCLEAN STRONG is packaged in jars of 1 kg.

STORAGE: In its original sealed packaging if kept protected from freezing temperatures and direct sunlight, at a temperature between 0°C and 40°C.

SHELF LIFE: 12 months.

PRODUCT TECHNICAL DATA

Appearance:	Yellow-green liquid
Storage:	12 months in its original packaging
Dilution ratio with water:	Any ratio
Recommended dilution ratio:	1:5
Consumption:	50 - 100 g/m ²
Application temperature:	From + 5°C to + 35°C
Density:	1,05 kg/cm ³
pH: Approx.	1
Inflammability:	+ 180°C
Danger of harm:	Irritating to eyes and skin. Use safety goggles and wear suitable protective clothing
