

# 2K-CLEANER

Detergent for the removal of epoxy sealant residues

- Easy to use
- Removes residues and halos left by epoxy sealants
- Effective for first cleaning and post-installation cleaning
- We recommend combined use with DEKOFELT and DEKOSPONGE
- Water-based. Does not contain solvents harmful to health

## TECHNICAL FEATURES:

2K-CLEANER is a special ready-to-use water-based detergent composed of a solution of high activity surfactants suitable for removing residues and halos left by epoxy sealants on ceramic coatings of all kinds on a wide variety of non-absorbent supports. 2K-CLEANER is available in comfortable 500 ml sprays for easy and waste-free use and in 5-liter bins.

## FIELDS OF APPLICATION:

Removal of residues and halos resulting from the grouting of ceramic coatings with epoxy sealants.

## HOW TO USE:

Immediately after applying DEKOGROUT-2K apply 2K-CLEANER evenly on the surface to be cleaned instead of water. Emulsify the product with DEKOFELT, special felt, and clean everything with DEKOSPONGE, soft cellulose sponge, using plenty of clean water. The next day apply 2K-CLEANER evenly on the surface to be treated, leave for about 15-20 minutes and then remove all residues with a felt and a clean soft cloth. Rinse thoroughly with clean water.

## FULL SERVICE:

The full service of the finished floor depends on the weather conditions and the hardening of the putty used for sealing the joints. Before final cleaning and full service verify if the product into the joints is completely hardened.

## WARNINGS:

- Do not use on surfaces whose characteristics are not known, make a preliminary test to avoid spoiling them.
- The product is not classified as dangerous, but always use adequate personal protective equipment, such as rubber gloves and goggles.

**CONSUMPTION:** About 100-150 ml/m<sup>2</sup>.

**PACKAGING:** 2K-CLEANER is available in 500 ml sprays, 1-liter jars and 5 liter bins.

**STORAGE:** In the original unopened packaging in a dry and cool place.

**SHELF LIFE:** 12 months.

#### PRODUCT TECHNICAL DATA

Consistency:	Liquid
Color:	Transparent
Storage and shelf life:	12 months in original packaging closed in a cool and dry place
Danger of toxicity:	No
Inflammability:	No
Ph:	8
Density:	1.02 kg/dm <sup>3</sup>
Application temperature:	+5°C to +35°C
Temperature resistance:	-30°C to +90°C
Consumption:	100 – 150 ml/m <sup>2</sup> , depending on the quantity to be removed
